5491. Matrix Diagonal Sum

My Submissions (/contest/biweekly-contest-34/problems/matrix-diagonal-sum/submissions/)

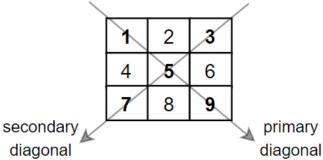

Back to Contest (/contest/biweekly-contest-34/)

Given a square matrix mat, return the sum of the matrix diagonals.

Only include the sum of all the elements on the primary diagonal and all the elements on the secondary diagonal that are not part of the primary diagonal.

Example 1:

Example 2:

Example 3:

```
Input: mat = [[5]]
Output: 5
```

Constraints:

n == mat.length == mat[i].length

• 1 <= n <= 100

```
1 <= mat[i][j] <= 100
 JavaScript
  1 • /**
      * @param {number[][]} mat
  2
      * @return {number}
  3
  5 var diagonalSum = function(mat) {
  6
  7
     };
☐ Custom Testcase
                    Use Example Testcases
                                                                                Submit
                                                                      Run
```
